INTRODUCTION

We are pleased to present the 2012 report of the Australia and New Zealand Organ Donation Registry (ANZOD Registry). The Registry has been collecting and reporting on data for deceased organ donors since 1989 in Australia and 1993 in New Zealand. This report contains data for the year 2011 as well as cumulative data from each country since inception.

The Registry continues to be a collaborative effort of the Australasian Transplant Coordinators Association and the Australia and New Zealand Dialysis and Transplant Registry (ANZDATA). The Registry gratefully receives funding from the Australian Organ and Tissue Donation Authority, Kidney Health Australia and the New Zealand Ministry of Health.

It is usual for a Special Section to be included in the Report. This year the Special Section is Liver Transplants from Donors After Cardiac Death by Ms Glenda Balderson, Professor Jonathon Fawcett and Professor Stephen Lynch from the Australia and New Zealand Liver Transplant Registry.

We would like to thank Ms Kathy Hee, the Manager from Donate Life SA as the ATCA co-editor of previous reports for her expertise over the years and wish her well in her retirement. Ms Violet Marion from Donatelife - Victorian Organ Donation Agency has been appointed to become the new co-editor from 2012.

The report can be accessed via our website http://www.anzdata.org.au.
