

SWIFT

SYMPTOM MONITORING WITH
FEEDBACK TRIAL (SWIFT)

October Newsletter 2024

About SWIFT

SWIFT aims to see if people who are managed with hemodialysis for kidney failure can benefit from more regular monitoring of their symptoms (like tiredness, itching, pain) and if feedback of these symptoms to their nurses and kidney doctors improves patients' overall quality of life. This trial is run by University of Sydney in collaboration with ANZDATA.

Bairnsdale Hospital

Congratulations to the dialysis team at Bairnsdale Hospital in VIC on their first clinical trial!

This achievement highlights the dedication of the team lead by their PI. NUM Justin Hamilton and SWIFT trial in promoting participation in clinical research within regional towns.

Investigator's Meeting

The SWIFT annual Investigators Meeting was held during ANZSN ASM on Tuesday, September 3rd 2024. Big thanks to our collaborators who joined us online and in person!

For those who couldn't attend, you can watch the recording [here](#).

**Milestones
Achieved**

We have
exceeded
2,000
participants !

We would like to thank our current and past participating units, participants, and staff!

Lead HREC Approval Extension

We are pleased to announce that the Lead Human Research Ethics Committee (HREC) has granted an extension for SWIFT until August 2027.
